**Subject:** Gallatin River work

Darrin,

Below is a request to our lab for field support for the Gallatin. Please review and make sure it's accurate. If there are other details you can add, please include those. Thanks!

Tina

**Gallatin River sampling:** MT is still interested in having field support to sample the Gallatin River and associated tributaries in August 2022. Sampling could include: Water chemistry, macroinvertebrates, periphyton, and flow at ~10 sites as part of a synoptic sampling event. The state plans to provide additional detail before we meet next Thursday.

- Timing: August
- Location: Gallatin River in Montana
